

Electric Vehicle Certification Summit

CALL FOR PARTICIPANTS

Join us for the SACA/MICHauto/MWTEC/LEO exclusive Electric Vehicle Certification Summit

The Smart Automation Certification Alliance ([SACA](#)) is partnering with [MICHauto](#), the Michigan Workforce Training and Education Collaborative ([MWTEC](#)), and the Michigan Department of Labor and Economic Opportunity ([LEO](#)) for the Electric Vehicle Certification Summit. The Summit will include in-depth discussion about what industry-approved certifications are needed to train and upskill the Electric Vehicle and Electric Battery workforce. This event will also include the development of standards and validation of SACA's Electric Vehicle Battery Basics certification.

We're calling on automotive industry experts to attend the Summit and offer your expertise. This is an opportunity for your organization to have input on the skills and competencies needed for today's Electric Vehicle and Electric Battery workforce.

Your input will be used to create nationally-recognized, occupation-driven certifications and EV training programs for careers like Operator/Assembler and Technician/Skilled Tradesman. Additionally, SACA will seek your feedback on future needs of industry and technology trends that will help shape their strategy moving forward.

December 7, 2023

One Kennedy Square
777 Woodward Ave Suite 800
Detroit, MI 48226

BENEFITS OF PARTICIPATING

- Gain first access to state-of-the-art industry standards
- Ensure your company's skill needs are addressed by nationally-recognized certifications
