

# ***SACA Micro-Credentials: How to Quickly Upskill Your Manufacturing Workforce***

**Join SACA and DCMA for an exclusive look at how to recruit employees with the skills you need.**

## **WHO IS IT FOR?**

The technical work group will identify the competencies employers are seeking when they hire and promote employees in these technical positions. Ideal participants include people responsible for operations, maintenance, process control and quality.

## **WHO WILL BE PRESENTING**

Get first access to updates from SACA Executive Director Jim Wall on new credentials, occupational alignment and further expansion plans.

Guest speakers will share insights into topics like K-12 pathways, industry-education alignment, statewide adoption of certifications, and more.

## **WHAT IS THE NEED?**

Are you struggling to find workers for your open positions? Are you investing in automation and now need to upskill/reskill your employees? Do you want a workplace culture where people seek to learn, grow their skills and stick around long-term?

**Discover how industrial employers are hiring, training and retaining highly-skilled workers using micro-credentials from the Smart Automation Certification Alliance**

Learn about the only Industry 4.0 certifications developed by employers, for employers

Get a roadmap to align highly-targeted micro-credentials with the exact skills incumbent workers in your company need

Discover how to recruit SACA-certified employees graduating from advanced manufacturing programs

This event is open to all industrial employers - there is no cost to attend.

Continental breakfast is included.

**April 5<sup>th</sup>, 2024**

Dallas College – Garland Center  
675 West Walnut Street  
Garland, TX 75040
